	C1	There was a drop area sign on one hole -- but should not be there for a tournament.	
	C2	some areas "under improvement" were not marked. I had to hit one ball from a pile of dirt plugs.	
	C3	Ground under repair could have been marked better.	
	C4	Thank you for cancelling day 2 early in the day on Monday so that we re arrange schedules	
	C5	Having the ladies there to mark our balls on several of the holes was very helpful. Thank you all so much.	
	C6	If a course has a drop area or drop areas you need to inform players if they are in play or not. There was confusion in our group and no guidelines. We did not use drop areas but other groups may have. Causing inaccurate scores	
5	How satisfied were you with the pace of play?		
a	Pace of play was as expected for a of tournament this size.		87.50%
b	Pace of play was extremely slow.		12.50%
c	Course marshals were ineffective or not present.		8.33%

	C2	It was a blur but we did not notice any problems	
	C3	Pace of play was very slow at one point but the course marshal did address the issue	
	C4	We did not have to wait at all, but I heard that others did.	
	C5	This was mostly true for the 1st nine holes (A few times, there were 3 groups on a hole)... after we saw a marshal and complained, the situation improved considerably.	
	C6	Was a little backed up at one point!!	

	C7	Pace was fast, never had to wait.	
	C8	With weather conditions the way they were, pace of play was excellent	
	C9	Course marshalls did their job.

	C5	Did not stay for food	
	C6	Could you please have healthier food ? Veggies, fruit cheeses (not fried)	
	C7	EXCELLENT!!!!	
	C8	Did not like that everything was fried.	
7	How satisfied were you with the awards for this tournament?		
	a	Tournament results were accurate and clearly marked.	36.36%
	b	Award announcements were made in a timely manner.	13.64%
	c	Result postings were too slow.	0.00%
	d	The number of awards given were appropriate for the number of players participating in this tournament.	50.00%
	e	Too few awards were given for the number of players participating in this tournament.	0.00%
	C1	The posting & timeliness of the announcement of awards were both good. The distribution of the prizes as it relates to the 1:3 ratio was appropriate. However, I would like to respectfully put forth a comment about the overall gross prize and the proximity prizes. Both of these prizes are commonly won by the lower handicapped and higher skilled players. As a field of 52 teams, I would suspect only 15-20% of the field is competitive for the overall gross prize. In my opinion, the prize distribution was too high considering that lowest score was against 8-12 teams that were competitive for a gross prize. The team that won overall low net had the lowest score of the entire 52 team field and received considerably less of a payout. With reference to the proximity prizes, I would rather see a longest putt or a straightest drive contest that would allow all players a better opportunity to win. I thought it was a nice touch to award "the team" the prize; however, I would recommend that each player receive \$25, rather than \$50.	
	C2	All went well	
	C3	Instill disagree with the last-6 etc tie-breaker when teams are shotgunned as does not reward those whom finish best as designed. I think using the hardest handicap holes is better w shotgun.	
	C4	1-2 & 4 apply but survey would only let me check 1	
	C5	Result announcements were just a little slow.	
	C6	I pulled out so wasn't there for this portion- can't comment	
	C7	Did not stay for awards, but after seeing the results, it appeared quite reasonable to me as far as the pay outs	
	C8	Results were also clearly indicated.	
	C9	Perfect again!

	C1	This was my first Bash. I was extremely impressed with how well this tournament was run. Start to finish everyone did an amazing job. Thank you for a wonder experience.	

	C2	I appreciate the transparency that you are affording the participants with posting the methods of how you calculated the course handicaps & the flights. My recommendation for the flighting is to reduce the number of teams to not exceed 10 per flight, and it break flights by how competitive teams are among their peers. For example, if there are only 8 teams in the field that are truly competitive for gross, then the first flight should have 8 teams in it and you pay only 1 gross & 2 net prizes which still basically follows your 1:3 payout rule. Conversely, If you have eight teams who have team handicaps that are over 60, they should not be at the bottom of the 4th flight when the first team in the 4th flight has a team handicap of 40. The bottom team few teams have no chance at winning gross & only is competitive for net.	
	C3	King's Creek did a great job.	
	C4	Great job except fir Mother nature. Also I have not heard anything about refunds for Day 2.	
	C5	You all did a great job! My only wish for next year is that you work a little harder with the weather Gods??	
	C6	The tournament was very well-organized.	
	C7	It was difficult hearing the women using the microphone before the start of the tournament... men were much louder and clearer.	
	C8	I thought the tournament was well done. Hopefully weather will be better next year!	
	C9	It was well done all the way around!!!	
	C10	Everything was great!	
	C11	Add one more flight to make the tournament equitable within each flight. Thank you for including the handicap and flighting information. It was informative!	
	C12	Was well dobe	
	C13	I think you nailed it. Ran very smooth.	
	C14	I think you all on the board and at the course are spot on. Don't change a thing! You all put alot of hard work in to this and it shows! Thank you.	
	C15	I thought everything was fantastic except the weather.?? You are awesome
